20 July 2013

Dear Principal,

Each year, some of your students may wish to continue their secondary education in Raimondi College. It is because they agree with our educational aims of promoting whole-person development and preparing students for life-long learning. In these years, we are glad to see that your graduates who are now studying in our school have shown enthusiasm for learning, developed sound character and adapted to the new learning environment well.

In this connection, we are happy to let you know that WONG HEI YEUNG, a former student of your school, has obtained an outstanding result of ranking 26th out of 142 Secondary Three students in the second term examination of the academic year 2012-2013. No doubt, the sound foundations provided by your school were instrumental in this achievement. Let me take this opportunity to thank your school for the fine contribution to the student's performance.

We hope we can have the opportunity to cooperate with your school again in the future.

Yours sincerely,

G. W. Au
Principal
